**Certificate Endorsed with Merit**

Year 13 – Physics, Statistics, Graphics, English and Art Painting

**Certificate Endorsed with Merit**

**Goal:** Make friends and improve my English skills

**1) Why did you choose New Zealand to study?**

NCEA, which is New Zealand's education system, fascinated me. Through this great system I could set wider goals for my career which will give me more opportunity to study or work in different countries.

**2) What is the best thing about studying at Otumoetai College?**

It is the biggest college in Tauranga so has a vast number of subjects to choose from and lots of teachers. The students are the centre of the college so have a great opportunity to enjoy their school life.

**3) What do you enjoy most about being in New Zealand?**

I enjoyed the outdoor activities that I could not do in my country. New Zealand has a beautiful landscape and people can enjoy a variety of activities such as skydiving, surfing, hiking and climbing.

**4) What would you say to a student from your country considering coming to New Zealand to study?**

I strongly recommend to come to New Zealand to study because it gives you other opportunities, so not limiting you to Korea.

Also you can choose the subjects you enjoy which will help you get better grades and achieve your goal.

**5) What are your career aspirations?**

I would like to have a job related to Space so hope to study Aerospace Engineering.

**6) What do you plan to do after your New Zealand education is completed?**

I plan to go to a Japanese University to study Engineering. The reason is that Japan is closer to Korea and Japan has great opportunities to study Engineering. My New Zealand education has made it possible for me to achieve this goal
